

## Development with Unity: past, present and... future?

Hosted By  
Adrian T.

### Details

**ABSTRACT**  
The game development world is shaking from the latest news around Unity, which has dramatically changed its pricing model, with dire consequences for developers worldwide.

We are listening to the community and understand that there are many questions about using Unity for any project right now. Thus, we are changing the scope of this session from a technical introduction to development in Unity, as originally planned, to a historical perspective, that will help us understand where we stand as developers.

Come and join an epic session where Elena Blanes will cover the trajectory of Unity and discuss what to expect as we head into 2024 with the new pricing policies.

This event will be held in Spanish. Simultaneous English translation will be provided.

**AGENDA**  
18:00 - Welcome  
18:30 - Talk: "Development with Unity: past, present and... future?" by Elena Blanes  
19:15 - Q&A  
19:30 - Networking  
20:00 - Farewell

**SPEAKER: Elena Blanes**  
Industrial Technical Engineer. Passionate about video games since she got a Megadrive at the age of 9. She decided some time ago to turn her passion into her profession and she is now a video game developer. Co-founder of the MálagaJam association and founder of Stega, where she is dedicated to creating virtual reality projects and video games. She is also a teacher and co-founder of Stega Academy, an online video game creation academy.
