Details

In this talk we will introduce some concepts related to kotlinx.coroutines library, often not included in introductory talks and that are a "must have" for all devs using the library.

Agenda:

18:30 Welcome

19:00 Talk + Q&A

19:45 "Android Apprentice" book give-away

20:00 Networking and chat 21:00 Farewell

Yes, you read it well, we will be giving away a copy of "Android apprentice" book from Ray Wenderlich Tutorial Team to one lucky winner. Be there for a chance to win!

Bio: Olmo Gallegos is an Android Dev at GoMore / Amovens, a Kotlin lover, and an OSS

maintainer. He is an Android expert with focus on Clean Architecture and Clean Code. He also

knows his way around iOS code.

He is passionate about open source, being the owner of some Android libs, such as PdfViewPager (https://github.com/voghDev/PdfViewPager).

In his free time, he breakdances and performs acrobatics. In winter you will find him

snowboarding in Sierra Nevada. https://github.com/voghDev
